## Free Slider Elberta Clip'er

[www.legendaryproduct.com](http://www.legendaryproduct.com)

### Directions for Using with a Planer Board:

1. Replace the snap swivel generally used on the stern of most planer boards.
2. Place line in hook of Free Slider.
3. Turn cap a fraction until it snaps closed.
4. This allows planer to be held on the proper angle creating true tracking.
5. If a strike occurs the board is released from the main release.
6. Planer board will slide down the line to the barrel swivel placed ahead of your lure.
